

## PEOPLE & CULTURE MANAGER LES MILLS NORDIC

### KIA ORA

Big, audacious goals- we've got them- have you? We want create a fitter healthier planet. You know that starts with talented individuals leaning in.

We pour our hearts into helping the world fall in love with fitness. Our 2020 goals are to have 20 million weekly Les Mills workouts in live venues and 100 million weekly Les Mills health experiences.

It's a start up- but not as you know it! Les Mills International's model is tried and tested as we enter a market in start-up mode it is with the support and knowledge gained from nearly 50 years in operation.

That's us. Driven, committed and excited about our future- what about you?

The skills we need for our Nordic office are a blend of recruitment, project management and HR.

You probably earned your stripes in agency recruitment- you understand fast paced, high pressure and having your success resting on your ability to influence two or three parties to come to...well, the party! You are a natural influencer and persuader.

You realised quickly there was more to what you did than hitting call/ sales KPIs- you have an innate ability to make and see connections where others don't. You are a connector of people to solve business problems and strategy to action.

At some point one of your clients made you an offer you couldn't refuse. You went in- house hanging up your agency mask and putting on your corporate cape. You went on a crusade for the company you worked for- sourcing talented individuals and offered a more compelling "sale" because you worked there.

You've probably dabbled with HR as part of your role or may have even fully moved into HR. You realised the skill set you had lent you towards commercial and strategic outcomes rather than the old school HR /Personnel that slows things down. Don't get us wrong- You are NOT a maverick, your speed and ability to get things done comes for commercial acumen and entrepreneurial style.

You eat, drink, think and probably even dream about talent and the future of workforces...and now you want to work for a company with heart and purpose. Yay! We're here...

It'll blend all the experiences you have and stretch you a little more.
